

Reporting Contact for Business Partners

The Nifco Group has established an internal whistle-blowing system.

In addition, to ensure the effectiveness of the “Whistleblower Protection Act” in Japan, we have established contacts (internal and external) for reporting by business partners.

In the operation of this system, we are committed to protecting the privacy of those who report or consult with us, and to preventing unfavorable treatment resulting from such reports.

●Contacts for reporting legal violations and illegal acts made by the Company and Group companies in the course of business (Please select ① or ②)

① **External Contact (Kajitani Law Offices)**
